Set Up Your Facebook Pixel

Set up a single Facebook pixel to unlock powerful tools in Facebook advertising.

1 Create Your Pixel

1. Click 'View Pixel Code'

2 Install the Code

Place the pixel code in your website header. Download pixel helper to see if the code is working, or get guidance.

View Pixel Code

3 Choose Your Actions

Use standard conversion events or rule-based custom conversions to define which actions are most valuable to you.

Instructions and Pixel Codes

sent you instructions for installing the Facebook pixel on a website. Your organization is using the Facebook pixel to track website activity and run ads based on that activity.

You must install two kinds of code snippets on the website. This includes pixel base code on every page of your website and event code on specific webpages.

1 Facebook Pixel ID

Your pixel ID is the unique number assigned to your Facebook pixel. You can use this number in your pixel base code.

Pixel ID 16

2 Install Pixel Base Code

The pixel base code tracks activity on your website, providing a baseline measuring specific events. Copy the base code below and paste it between header tags on every page of your website:

<!-- Facebook Pixel Code -->

Copy Pixel

Paste Pixel

Replay

Install Pixel Base Code (Required)

Copy the code below and paste it between the <head> and </head> in your website code. The pixel will track visits to every page of your website. Get help installing your pixel.

```
<!-- Facebook Pixel Code -->
<script>
!function(f,b,e,v,n,t,s){if(f.fbq)return;n.callMethod.apply(n,arguments);n.q=n.q.concat(Array.prototype.slice.call(arguments,0));n.version='2.0';t.src=v;s=b.getElementsByTagName(e)[0];document.write('<script src='+'https://connect.facebook.net/en_US/sdk.js'+'>');fbq('init','16');fbq('track','PageView');
</script>
<noscript></noscript>
<!-- DO NOT MODIFY -->
<!-- End Facebook Pixel Code -->
```

2. Your pixel ID is displayed here

t.src=v;s=b.getElementsByTagName(e)[0];s.parentNode.insertBefore(t,s)}(window,
document,'script','//connect.facebook.net/en_US/fbevents.js');
// Insert Your Facebook Pixel ID below.
fbq('init', 'FB_PIXEL_ID');
fbq('track', 'PageView');
</script>
<!-- Insert Your Facebook Pixel ID below. -->
<noscript></noscript>
<!-- End Facebook Pixel Code -->

<script>
// Assuming a single item is purchased
fbq('track', 'Purchase', {
  content_name: 'Really Fast Running Shoes',
  content_category: 'Apparel & Accessories > Shoes',
  content_ids: ['1234'],
  content_type: 'product',
  value: 199.50,
  currency: 'USD'
});

// Assuming multiple items are purchased
fbq('track', 'Purchase', {
  content_ids: ['1234', '4642', '35838'],
  content_type: 'product',
  value: 247.35,
  currency: 'USD'
});
</script>
```

Select Pixel in FB Campaign

The screenshot displays the Facebook Ads Manager interface. On the left, a sidebar lists various conversion events: Page Post Engagement, Page Likes, Clicks to Website, **Website Conversions** (highlighted), App Installs, App Engagement, Event Responses, and Offer Claims. The main content area is titled 'Website Conversions' with a globe icon and the text 'Promote actions you want people to take on your website.' Below this, a URL 'http://shop.societyclothing.com/' is entered. A dropdown menu shows 'Society Clothing .com Pixel' as the selected pixel. Below the pixel selection, two categories of conversions are listed: 'CHECKOUTS' and 'ADDS TO CART'. Under 'CHECKOUTS', 'Society Clothing .com Pixel' is listed as 'Active' with a green checkmark. Under 'ADDS TO CART', 'Added an Item to Cart' is listed as 'Unverified' with a red dot.
