Crowd Sourcing

Introduction

- ❖ Crowd sourcing involves outsourcing to a group of individuals (i.e. crowd) rather than a specific individual
- ❖ Major benefit is the variety of ideas or solutions from wide selection of talents versus a single idea or solution from a single talent
- ❖ Popular tasks to crowd source include:
 - Web site design
 - Logo design
 - Book cover design
 - Product packaging design
 - Name card design

How It Works

- ❖ Register for a free account at 99designs.com

The image shows the 99designs sign-up form. At the top is the 99designs logo. Below it is the heading "Sign up" and a link "Already have an account? Log in." The form contains three input fields: "Email address", "Password", and a radio button selection for "I need something designed" (selected) and "I'm a designer". A "Sign up" button is at the bottom. A red box highlights the "Email address" field, another red box highlights the "Password" field, and a third red box highlights the "I need something designed" radio button. Below the form, there is a disclaimer: "By clicking 'Sign up', you are indicating that you have read and agree to the 99designs General Services Agreement and the 99designs Design Contest Services Addendum."

How It Works

❖ Step 2 - Complete the design brief

Launch a logo and business card contest

1 [What do you want designed?](#) 2 **Design brief** 3 [Contest details](#) 4 [Launch contest](#)

Step 2. Design brief

Describe what you want to our design community.

To produce the perfect design, our designers need to know exactly what you're looking for. Be as specific as you can to ensure you attract as many designers as possible - it helps to stand out!

What name do you want in your logo?

E.g. Acme

Do you have a slogan you want incorporated in your logo?

Tip: Leave blank if you don't want one incorporated.

Describe what your organization or product does and its target audience

E.g. We sell anvils and other industrial goods to manufacturing companies and hobbyists all over the world.

Select your industry

How It Works

❖ Step 3 – Select Contest Package

- 1 What do you want designed? 2 Design brief 3 Contest details 4 Launch contest

Step 3. Contest details

Create a contest that attracts the right designers to your brief.

We've got the largest design community online so it's important to create a contest that attracts the kinds of designers you want to work on your brief.

What design package do you want?

All packages come with a 100% money-back guarantee and you own full copyright to the final design.

- ☐ **Bronze - \$449**
Get lots of great designs at a great price
 - Expect around 30 designs
- ☒ **Silver - \$649** **Most popular**
Attract great designers and get priority support
 - Your project will be shown to designers before bronze projects
 - Expect around 40 designs
- ☐ **Gold - \$849**
Attract the best designers and receive one-on-one assistance
 - Your project will be shown to designers before bronze and silver projects
 - A dedicated account manager will guide you to the best result possible
 - Expect around 60 designs

How It Works

❖ Step 3 – Select Contest Package

- Make your contest 'blind' and 'guarantee your contest' to attract more high quality designers

Contest preferences

Make it a blind contest

Designers can not see each others entries. Only you and the original designer can see their idea. Your design brief is still visible to the general public.

Guarantee your contest

This means you guarantee to award a winner for your contest, **forgoing your right to claim your money back**. On average, guaranteed contests attract 200% more designers!

Make it a private contest (+\$39.00)

Your contest will be hidden from search engines like Google as well as the general public. Only the 99designs community will be able to view your design brief and designers concepts.

How It Works

❖ Step 4 – Make Payment & Launch Your Contest

1 [What do you want designed?](#)2 [Design brief](#)3 [Contest details](#)4 **Launch contest**

Step 4. Launch contest

Help

Providing feedback is critical

Give feedback to tell designers what you want and encourage them to continue participating.

1. Use the [star ratings](#) as a grading system so designers know where they stand.
2. Providing comments on individual designs is the most helpful to designers
3. [Writing a global comment to all designers](#) is good for giving direction to all designers at once.
4. Don't be afraid to [eliminate a design](#)
