

Google My Business

Introduction

- Google My Business is Google's latest all-in-one product that supersedes Google+ and Google Places.
- With Google My Business, companies can be more easily found in Google Search and in Google Maps.
- Is suitable for all types of businesses, including work-at-home businesses and businesses without a physical address.
- For businesses with a physical address, verification is required (in the form of a post card pin) in order to verify and claim the business.
- Details of the business can be updated (e.g. photos and info) and managed via the Dashboard.
