

# WordPress Plugin Essentials

# Introduction

- One of the main benefits of using WordPress as a Content Management System (CMS) is the array of Plugins that allow a basic WordPress installation to evolve into a feature rich web platform.
- Nonetheless, even at the basic installation level, a standardised set of core plugins should exist in every WordPress site – so that certain key functions and features can be easily accomplished.
- For this training, we list down our preferred set of core plugins that we install for every WordPress site that create.
- And you will also learn, step-by-step how to install, activate and configure these plugins.

# Core WP Plugin List

- All-In-One SEO Pack – On-Page SEO
- XML Sitemaps - SEO
- WP Sitemap Page - SEO
- Duplicate Post - Productivity
- Contact Form 7 – Productivity
- Code Insert Manger (Q2W3 Inc Manager) – Productivity
- Google Analytics - Analysis
- IgniteUp – Coming Soon & Lead Generation
- SendGrid – E-mail Deliverability
- Add To Any Share Buttons – Social Sharing

# Adding Plugins

4. Select your plugin from the matching list.

3. Enter the type of plugin you need.

The screenshot shows the WordPress dashboard with the 'Plugins' menu item selected. A search bar at the top contains the keyword 'mailchimp'. Below the search bar, a list of plugins is displayed, with the first plugin, 'MailChimp List Subscribe Form', highlighted by a red box. A yellow callout box points to the 'More Details' button for this plugin, which is also highlighted with a red box. Another yellow callout box points to the same 'More Details' button with the text: 'To know more about the plugin, click on 'More Details''.

Search Results    Keyword: mailchimp

255 items 1 of 9

MailChimp List Subscribe Form

# Adding Plugins

The screenshot shows the WordPress admin dashboard with the 'Plugins' menu selected. A search result for 'MailChimp List Subscribe Form' is displayed. A yellow callout box highlights the 'Description' tab, which is currently selected (indicated by a red border). The description text provides an overview of the plugin's functionality, including a free trial account offer. To the right, detailed plugin information is shown, including version, author, last updated, requirements, compatibility, download stats, and links to the plugin page and homepage. Below this is a star rating chart and a list of star ratings. At the bottom right is an 'Install Now' button.

Select the 'Description Tab' to view details.

The MailChimp plugin allows you to quickly and easily add a signup form for your MailChimp list as a widget on your WordPress 2.8 or higher site.

Not sure what [MailChimp](#) is or if it will be helpful? Signup up for a [FREE Trial Account](#) and see for yourself!

After Installation, the setup page will guide you through entering your Login information, selecting your List from our Service, selecting options for the Merge Fields and Interest Groups you have setup, and then add the Widget to your site. The time from starting installation to have the form on your site should be less than 5 minutes - absolutely everything can be done via the Wordpress Setting GUI - no file editing at all!

# Install WP Sitemap Page Plugin

3. Key in 'wp sitemap page'

Add Plugins | Upload Plugin

Search Results Featured Popular Recommended Favorites Keyword wp sitemap page 200 items 1 of 7 Help ▾

WP Sitemap Page by Tony Archambeau (Installed) Last Updated: 8 months ago Untested with your version of WordPress

Simple Wp Sitemap by Ataul Ghani (Last Updated: 2 months ago) with your version of WordPress

1. Click on 'Plugins'

2. Click on 'Add New'

4. Click 'Install Now'

Activate the plugin when prompted

The screenshot shows the WordPress Admin interface under the 'Plugins' section. A yellow box highlights the 'Plugins' menu item in the sidebar. Another yellow box highlights the 'Add New' button. A red circle highlights the 'wp sitemap page' keyword in the search bar. A yellow box highlights the 'WP Sitemap Page' plugin entry, with a red circle around the 'Installed' status and another red circle around the 'More Details' link. A large yellow callout box contains steps 1, 2, 3, and 4. Step 1 says '1. Click on "Plugins"'. Step 2 says '2. Click on "Add New"'. Step 3 says '3. Key in "wp sitemap page"'. Step 4 says '4. Click "Install Now"'. A yellow arrow points from step 4 to the 'Install Now' button for the 'WP Sitemap Page' plugin. A yellow arrow also points from step 3 to the search bar.

The screenshot shows the WordPress admin interface for creating a new page. A sidebar on the left lists various site sections like Dashboard, Posts, Media, Links, Pages, and Appearance. The 'Pages' section is highlighted with a red box and labeled '1. Click on 'Pages''. Below it, 'All Pages' and 'Add New' buttons are visible. A yellow box labeled '2. Click on 'Add New'' highlights the 'Add New' button. The main content area shows a title field with 'site-map' (circled in red) and a text area containing the code '[wp\_sitemap\_page]' (also circled in red). A yellow box labeled '3. Name this page as 'site-map'' points to the title field. Another yellow box labeled '4. Type in the code [wp\_sitemap\_page]' points to the text area. To the right, a 'Publish' sidebar shows basic settings like Status: Published, Visibility: Public, and Publish date. It also includes a 'Move to Trash' button and a large red box around the 'Update' button. A yellow box labeled '5. Click 'Publish'' points to the 'Update' button. At the bottom, there's a note about All in One SEO Pack and a 'Set featured image' option.

1. Click on 'Pages'

2. Click on 'Add New'

3. Name this page as 'site-map'

4. Type in the code [wp\_sitemap\_page]

5. Click 'Publish'

# Cloning (Duplicating Posts & Pages)

To copy pages and posts, you can install the plugin named “**Duplicate Post**”.

*This plugin will allow you to clone your most used pages & posts; then you can make the desired editing to them.*

1. Enter the plugin name

# Contact Form 7 Plugin

# Contact Form 7

The screenshot shows the WordPress 'Add Plugins' screen. A sidebar on the left has 'Plugins' selected. A yellow box labeled '1. Click on "Plugins"' points to this. Another yellow box labeled '2. Click on "Add New"' points to the 'Add New' button in the sidebar. The main area shows search results. A yellow box labeled '3. Key in "contact form 7" and hit Enter key to search' has a red box around the search bar containing 'contact form 7'. A yellow box labeled '4. Click on "Install Now"' points to the 'Install Now' button for the 'Contact Form 7' plugin. A modal window titled 'Installing Plugin: Contact Form 7 4.4.2' shows the plugin being downloaded and installed. A yellow box labeled '5. Click on "Activate Plugin"' points to the 'Activate Plugin' button in the modal. Other plugins like 'Contact Bank - Contact Forms Builder' are also visible.

1. Click on 'Plugins'

2. Click on 'Add New'

3. Key in 'contact form 7' and hit Enter key to search

4. Click on 'Install Now'

5. Click on 'Activate Plugin'

# Contact Form 7

The screenshot shows the 'Contact Forms' page in the WordPress admin area. A sidebar on the left lists various menu items, with 'Contact' being the active one, indicated by a red box and a yellow callout '1. Click on 'Contact''. Below the sidebar, a list of contact forms is shown, with the first item, 'Contact form 1', also highlighted with a red box and a yellow callout '2. This is a default form created for you'. Above the list, the 'Add New' button is circled in red and has a yellow callout '3. You can add additional forms by click on 'Add New' button' pointing to it.

# Code Insert Manager (Q2W3 Inc Manager) Plugin

# Code Insert Manager

The screenshot shows the WordPress Admin Dashboard with the following steps highlighted:

1. Click on 'Plugins'
2. Click on 'Add New'
3. Key in 'q2w3 inc manager' and hit Enter key to search
4. Click on 'Install Now' to install Code Insert Manager plugin
5. Click on 'Activate Plugin'

Annotations include yellow boxes and arrows pointing to specific UI elements like the search bar, 'Install Now' button, and 'Activate Plugin' link. Red boxes highlight the 'Add New' button and the 'Install Now' button.

# Code Insert Manager

The screenshot shows the 'Code Insert Manager' page in the WordPress admin area. The left sidebar has a red box around the 'Code Insert' menu item under 'Inserts'. A yellow box labeled '1. Click on \'Code Insert\'' points to this item. Below it, another yellow box labeled '2. Click on \'Add New\'' points to the 'Add New' button in the main content area.

The main content area shows the 'Code Insert Manager' form. A red box highlights the 'Description' field, which contains 'Facebook Conversion Pixel'. A yellow box labeled '3. Assign a name of this code, eg: \'Facebook Conversion Pixel\'' points to this field.

Below the description, there are fields for 'Status' (set to 'Active'), 'Location' (set to 'Header'), and 'Priority'. A yellow box labeled '4. Under \'Insert on Pages\', click on \'...\'' points to the 'Insert on pages' section.

In the 'Insert on pages' section, there is a red box around the 'Pages:' button. To its right, a yellow box labeled '5. Click on the page(s) that you have the code inserted' points to the 'Select pages' modal window. This window lists various page types (PF: Chat, PF: Gallery, etc.) and specific pages like 'All Posts' and 'Thank You For Your Registration'. A red box highlights the 'Thank You For Your Registration' page. A yellow box labeled '6. Click on \'Apply\'' points to the 'Apply' button at the bottom of the modal.

At the bottom of the main form, there is a red box around the 'Save Changes' button. A yellow box labeled '8. Click on \'Save Changes\'' points to this button.

A large red box encloses the code source in the 'Include code' section:

```
<!-- Facebook Pixel Code -->
<script>
if(function(f,b,e,v,n,t,s){if(f.fbq)return;n=f.fbq=function(){n.callMethod?
n.callMethod.apply(n,arguments):n.queue.push(arguments)};if(!f._fbq)f._fbq=n;
n.push=n;n.loaded=!0;n.version='2.0';n.queue=[];t=b.createElement(e);t.async=!0;
t.src=v;s=b.getElementsByTagName(e)[0];s.parentNode.insertBefore(t,s)})(window,
document,'script','https://connect.facebook.net/en_US/fbevents.js');

fbq('init', '1234567890123456');
```

A yellow box labeled '7. Copy the code from the source (eg: Pixel code from Facebook Ad Manager), and paste it here' points to this code block.

# Code Insert Manager

Hide from user (?)

Administrator,  Editor,  Auth

Include code (?)

```
document.write(unescape(decodeURIComponent('
fbq('init', '1234567890');';
fbq('track', "PageView");
fbq('track', 'Lead');
</script>
<noscript></noscript>
<!-- End Facebook Pixel Code --&gt;</pre>
```

1. Look for this part of the codes,  
insert a new line between

fbq('track', "PageView"); and  
  
</script>

Add the code fbq('track', 'Lead');  
as shown

**Save Changes**

2. Click on  
'Save Changes'

# Google Analytics Plugin

# Google Analytics

The screenshot shows the WordPress 'Add Plugins' screen. On the left sidebar, 'Plugins' is selected. A yellow box highlights '1. Click on 'Plugins''. In the main area, a search bar contains 'google analytics'. A yellow box highlights '3. Key in 'google analytics' and hit Enter key to search'. Below the search bar, a red box highlights 'Install Now' for the first result. A yellow box highlights '4. Click on 'Install Now''. At the bottom right of the main area, a yellow box highlights 'Activate Plugin'.

1. Click on 'Plugins'

Activating plugin...

Successfully installed the plugin SendGrid 1.8.2.

[Activate Plugin](#) | [Return to Plugin Installer](#)

The screenshot shows the IBM Marketplace interface. At the top, there's a navigation bar with links for Products, Services, Developers, Support, and Careers. To the right of the navigation is a search bar containing the word "sendgrid". Above the search bar is a red-outlined button labeled "Marketplace". A yellow callout box points to this button with the text: "1. You need to have a SendGrid account to use this plugin, go to [www.ibm.com](http://www.ibm.com) and click on 'Marketplace'".

The main content area shows a search result for "sendgrid". The first result is for "SendGrid", described as "SendGrid's cloud-based email infrastructure relieves businesses of the cost and complexity of maintaining email systems." It features a "Free trial" button and a "Learn more" button, which is also highlighted with a red rectangle. A second yellow callout box points to this "Learn more" button with the text: "2. Search for 'sendgrid' in marketplace". A third yellow callout box points to the "Learn more" button on the SendGrid listing with the text: "3. Click here to learn more on this service and create an account."

The screenshot shows the 'SendGrid' settings page within a WordPress plugin. On the left, a sidebar menu lists various options: Dashboard, All in One SEO, Posts, Media, Pages, Comments, Contact, IgniteUp, Appearance, Plugins (with a red notification dot), Users, Tools, Settings (which is selected and highlighted in blue), General, and Writing. Below the sidebar, there's a 'SendGrid' tab under 'Tools'. A red box highlights the 'SendGrid' tab in the sidebar.

The main content area is titled 'SendGrid Options' and contains the following fields:

- SendGrid credentials**
  - Authentication method:** A dropdown menu set to 'Api Key'.
  - API key:** An input field with a placeholder ' '.
  - Send Mail with:** A dropdown menu set to 'API'.
  - A note: 'Swift is required in order to be able to send via SMTP.'
- Mail settings**
  - Name:** An input field with a placeholder ' '.
  - A note: 'Name as it will appear in recipient clients.'
  - Sending Address:** An input field with a placeholder ' '.
  - A note: 'Email address from which the message will be sent.'
  - Reply Address:** An input field with a placeholder ' '.
  - A note: 'Leave blank to use Sending Address.'
  - Categories:** An input field with a placeholder ' '.
  - A note: 'Leave blank to send without categories.'
  - A note: 'Associates the category of the email this should be logged as.'
  - A note: 'Categories must be separated by commas (Example: category1,category2).'

A yellow callout bubble on the left points to the 'Settings > SendGrid' path with the text '1. Click Settings > SendGrid'. A yellow callout bubble on the right points to the 'API key' field with the text '2. Key in the values from SendGrid account'.

# Add To Any Buttons

The screenshot shows the 'AddToAny Share Settings' page in the WordPress admin. On the left, a sidebar menu is visible with 'Settings' selected. Under 'Settings', 'AddToAny' is highlighted with a red box. The main content area displays 'AddToAny Share Settings' with tabs for 'Standard' and 'Floating'. Under 'Icon Size', 'Large' is selected. In the 'Standalone Buttons' section, there are icons for Facebook, Twitter, and Google+. A button labeled 'Add/Remove Services »' is also present. Below this, under 'Universal Button', 'Image URL:' is selected, indicated by a blue plus sign icon. A yellow callout box points to this section with the text: '1. You can customize the plugin by click on Settings > AddToAny'. In the bottom right corner of the content area, there is a preview of a website page titled 'Welcome to Catering Services Malaysia!'. The page content includes: 'Looking for some of the best food catering services in Klang Valley, you have come to the right place. We provide to our customers with high quality catering food and the tastiest dishes around.' and 'We offer a complete buffet menu, halal catering menu, barbecue (BBQ) catering menu, children birthday parties, house warming menu, corporate luncheon menu, tea time menu and even a wedding reception catering menu.' A yellow callout box points to the social media sharing icons at the bottom of the preview page with the text: '2. Visit any pages or post, notice the social media icons appear at the bottom of the page/post'. The sharing icons are enclosed in a red box.
